

IoT Software Solutions Cookies Notice

Update Date: May, 22th, 2024

Effective Date: May, 22th, 2024

Information About Our Use of Cookies

This Cookies Notice (hereinafter also referred to as "Notice") describes the different types of cookies and similar technologies related to the website owned and controlled by Acceleronix B.V. ("we", "us", or "our"), which you can access by visiting this website.

What Are Cookies and Other Similar Technologies?

We use cookies and other similar technologies to collect and store certain information. "Cookie" is typically a small text file placed by your browser on your device (such as your computer or your mobile device) when you visit our website. We use cookies and similar technologies to remember information about you, your preferences, or your device information when you are using your device to interact with our website.

First-party cookies are cookies set by the website you are visiting. Only that website can access the cookies. In addition, a website may potentially use external services, which also set their own cookies, known as third-party cookies.

Persistent cookies are cookies stored by your browser on your computer or mobile device until the cookies expire or you manually delete them. The expiration date and the length of the valid session of a persistent cookie are determined by the cookie's developer. This implies that during the existence of the cookie, each time a user visits the website to which the cookie belongs, the cookie's data is sent to the creator's server or another website that sets out to find the cookie.

For utilization by a website during your visit, a session cookie is momentarily created on your device. This kind of cookie may keep track of the data you enter and the actions you perform on the website. When you exit your web browser, the session cookie will be deleted.

Cookies may not contain any information that personally identifies a user, but personal information that we store about you may be linked to the information stored in and obtained from cookies.

We provide information below on the use of these technologies.

What Cookies Do We Use?

We only use the following types of cookies and only when necessary to provide the service. The legal basis for the subsequent processing of the data collected with strictly

necessary cookies is "the provision of the service you have requested" (according to the applicable data protection laws and regulations and if in EU, Article 6(1)(b) GDPR).

Strictly Necessary Cookies - Always On

To ensure our website works correctly, we may at times place cookies on your computer or mobile device. The website uses security and persistent cookies that are strictly necessary to provide you with the services you have requested. Some features of the website may not function if you set your browser to block these cookies. Strictly necessary cookies do not include any personal information.

How Can You Manage Cookies?

- Delete cookies from your device

Most browsers allow you to accept all, reject all, or accept only certain types of cookies. The procedure for managing and deleting cookies usually can be found in the help function integrated into your browser. You can delete all cookies that are already on your device by clearing the browsing history of your browser, which will delete all cookies from all websites you have visited. Be aware though that you may also lose some saved information (e.g., saved login details, site preferences).

- Block cookies

You can set most modern browsers to block any cookies being placed on your device, but you may then have to manually adjust some preferences every time you visit a site/page, and some services and functionalities may not work properly at all.

Changes to Our Cookies Notice

If we change anything important about this Cookie Notice, we will notify you on the website via an appropriate method. You may view the Cookies Notice by visiting the website and clicking on the "Cookies Notice" link.
